Business & Operations: Accounting and payroll, cash flow reporting, unit economics, international logistics, Excel

Spoken: English (IELTS 8.0), Persian, Turkish, Qashqai

PROFESSIONAL EXPERIENCE

Co-founder & CEO - Sculptr

London • June 2025 - present

- **Traction** - Zero to **\$2k+ MRR** across **10+ paying London clinics** in 8 months, including award-winning injectors in premium practices with a combined 100k+ Instagram following. Web Summit Qatar 2026 Alpha startup.
- **Product, Brand & Front End** - Designed the brand and built the entire front end solo with Claude Code and Cursor: 3D Reconstruction pipeline, millimetre mark-up and measurement tools, facial analysis overlays, patient records and consent, and the marketing site. Next.js, React, TypeScript, Three.js, Tailwind.
- **3D Pipeline** - Two ML models turn a few phone photos into a morphable 3D face mesh, giving clinics what a £10k+ optical scanner does on hardware they already own.
- **Sales & GTM** - Interviewed 100+ doctors, set £149 to £499/mo pricing off the back of it, wrote the sales materials and built the affiliate programme. Closed every paying clinic personally through cold outreach and in-clinic demos.
- **Team** - Brought on a technical co-founder (Computer Science, Imperial College London; ML and AI at Arm) once there was revenue. He owns the backend, I own product, design, growth and customers.

Committee Member - AI Nexus

London / San Francisco • 2025 - present

- One of under ten people running the hackathons and events of a 7,000+ member AI community, in partnership with Google DeepMind, Y Combinator, YC-backed startups and universities globally.
- Drove the attention and turnout behind them: thousands of attendees across events, including at Y Combinator HQ in San Francisco and UCL with DeepMind.

Co-founder - Chain Sync

London • Jan - May 2024

- Launched as Bitcast, a gamified Bitcoin price prediction market on Polygon, then pivoted to a multi-chain DEX aggregator for crypto users and airdrop farmers once we saw where the volume actually was.
- Co-founded with a Goldman Sachs engineer; owned product, go-to-market and operations. Profitable within five months, wound down as market conditions turned and I moved into AI.

International Sales & Operations Assistant - MMTT Trading LLC

Dubai • Jul - Sep 2024

- Coordinated shipments and port visits across six ports (Dubai, Jebel Ali, Bandar Abbas, Basra, Khorramshahr, Kish Island), working directly with on-site teams and customs officials. Built sales presentations, lead-tracking reports and competitor pricing analysis that fed into live deals.

Assistant Accountant - Aluminum Pooyan Dej Parsi

Iran • Jul 2021 - Feb 2023

- Ran day-to-day finance at a manufacturing firm from age 18: invoices, payables, receivables, purchase orders, bank reconciliation, daily cash flow reporting, and payroll for a 40+ person team.

Bartender - Queen Mary Students' Union

London • Sep 2024 - Sep 2026

- Part-time through a full-time degree and Sculptr/AI Nexus/ChainSync.

PROJECTS & AWARDS

- **Crypto Trading** - In crypto since 2019, before the hype; \$20k profit trading the cycle. FX and crypto technical and fundamental analysis, Smart Money Concepts and ICT. The network led to Chain Sync.
- **Iranian Rotax Max National Karting Champion (2022)** - Won the national title in my second season, beating the reigning champion. Moved to London alone at 20 after two years chasing a professional athletic career.
- **3rd, National Kickboxing Championship (2014)** • 4th nationally, National High School Robotics Competition (2016) • First Aid certified (SBU & URS)

EDUCATION

Queen Mary University of London

London • 2023 - 2026

- BSc (Hons) Economics and Finance
